

SOFTWARE ENGINEERING PROJECT

IDP - Interdisciplinary Project (f/m/d)

Who we are.

Wannatree is an early-stage start-up with the mission to enable anyone to proactively counteract climate change passively while shopping. Using our innovative technology, it is possible to positively impact our planet in a fast, easy, and free of charge way. At the same time, **Wannatree** enables local businesses to attract new customers and improve customer loyalty.

What we are looking for.

We have already entered the market and our users offset CO₂ every day. To engage more users and scale **Wannatree**, we are looking for dedicated students to do their Interdisciplinary Project with us and help us on our mission to fight climate change in a smart way. Possible topics are:

A) Improve the Web-App's UX/UI

- Implement community features: User interactions, rankings, and challenges
- Create and develop unique gamification elements to enhance the usage of the platform

B) Mobile App Development (IOS / Android)

- Develop new features in our mobile app focussing on a seamless customer experience
- Integrate further features of the web-app into the mobile app

C) Customer Relationship Platform Development

- Improve the shop's KPIs through digital customer interaction and loyalty rewards
- Implement most requested features of our customers

It is preferable to have knowledge in JavaScript, Git and Linux. It is possible to work remotely.

What we offer.

Join an early-stage start-up with the goal of fighting climate change in a creative way. You will be able to develop own ideas, designs and features with modern technologies and test them immediately with a real user base. You can closely collaborate with founders and contribute to the growth of a young company and possibly join the team after the IDP.

Next steps.

It is possible to start any time. If you are interested, please send your CV and a short note why and in which topic you are interested to janick@wannatree.de. We will review your application and get in touch with you soon to arrange an interview call.
