Learning Agreement (MSNE)

Name (Student)	Student Number
Name (Mentor)	

Approaching your mentor or study office, always attach previously approved Learning Agreements!

Makeup Module: (max. one module, as may be necessary)

Module Title:			
Module ID (if available)	**Offered by**	**Language of Instruction**	**ECTS**

Further Elective Modules: Intended for scientific specialization, focus is <u>not</u> on professional skill training such as language courses, personality / self-management etc.! As a recommendation, do <u>not</u> list too many practicals (max. 10 ECTS!).

Student without Signal Processing basics in their Bachelor transcript are strongly encouraged to select a signal processing course at TUM, e.g.: BV290012 System Theory and Signal Processing.

Modules offered outside TUM/LMU: Please highlight recommended modules which are offered outside TUM and LMU ("external Modules"). Student and Mentor should search for mostly equivalent TUM or LMU modules and note them down in this agreement, e.g. in the additional remarks section. After completion of the external module, the student has to approach the TUM or LMU lecturer offering the equivalent module and ask for a statement of equivalence (form sheets available on the MSNE websites). We always recommend to get in contact first with the MSNE Program Manager. There is no guarantee that modules will be classified fully equivalent before the form sheets are finally checked by the lecturer of the corresponding TUM module.
